

Hong Kong Aviation Club

FOR IMMEDIATE RELEASE

HONG KONG(31 May, 2019) – Following the temporary suspension of all flying operations after the helicopter accident on 19 May 2019, the Hong Kong Aviation Club (HKAC) launched an intensive Safety Assessment to identify possible safety concerns on our fleet.

Having implemented additional safety checks and mitigation measures in our engineering and flight operations, we are now ready to resume limited fixed-wing operation on the 1 June 2019.

The Hong Kong Aviation Club is committed to safety, and we shall continue to do so in all aspects of our operation.

The President
Hong Kong Aviation Club

The Hong Kong Aviation Club is a non-profit organisation that promotes general aviation and provides aviation-related training to the public. The Club's mission is to foster the art of flying light aircraft in and around Hong Kong and elsewhere, to promote, motivate, encourage, foster, sponsor and provide education relating to aviation sports within the general public and to preserve and disseminate knowledge, understanding and appreciation of aviation by linking aviation past to the future.
